**NEW QUESTION: 1**

ã•©ã•©ã, çãf%ãf¬ã, ¹ãf¬ãf¬ãffã, ¬ã¬ã•ãf¬ãf¼ã, «ãf«ã•«ã%²ã, Šã½"ã•|ã, %ã, Ąã•Ÿã> °ææ%ã•©ãf¬ãf¼ã, «ãf«ã, çãf%ãf¬ã, ¹ã•©ã•Ÿã, •ã•«ã°^ç´„ã•ã, Ąã•|ã•„ã•¼ã•™ã•<i¼Ÿ

- A. 2002::/16
- B. FB00::/8
- C. FD00::/8
- D. 2001::/32

**Answer: C**

Explanation:

The address block fc00::/7 is divided into two /8 groups:  
+ The block fc00::/8 has not been defined yet. It has been proposed to be managed by an allocation authority, but this has not gained acceptance in the IETF  
+ The block fd00::/8 is defined for /48 prefixes, formed by setting the 40 least-significant bits of the prefix to a randomly generated bit string  
Prefixes in the fd00::/8 range have similar properties as those of the IPv4 private address ranges:  
+ They are not allocated by an address registry and may be used in networks by anyone without outside involvement.  
+ They are not guaranteed to be globally unique.  
+ Reverse Domain Name System (DNS) entries (under ip6.arpa) for fd00::/8 ULAs cannot be delegated in the global DNS.

**NEW QUESTION: 2**

- A. Option B
- B. Option C
- C. Option D
- D. Option A

**Answer: A**

**NEW QUESTION: 3**

Scenario

Please read this scenario prior to answering the Question  
You have been assigned the role of Chief Enterprise Architect within a leading outsourcing services company. The company has over 20,000 outsourcing professionals and works on some of the world's largest outsourcing projects. Outsourcing services include business processes, infrastructure, and service management. The company also provides business consulting services.

With numerous service areas and a large number of diverse engagements in progress at any given time, overall engagement management within the company has become challenging. The company does not want to risk its outstanding reputation or its international certifications and CMM ratings.

The company has an established an Enterprise Architecture program based on TOGAF 9, sponsored jointly by the Chief Executive Officer and Chief Information Officer. An Architecture Board has been formed comprised of IT staff executives and executives from the major service areas and consulting practice.

The Enterprise Architecture (EA) team has been working with the Strategic Planning team to create a strategic enterprise

architecture to address these issues. The EA team has defined a framework and held workshops with key stakeholders to define a set of architecture principles to govern the architecture work. They have completed an Architecture Vision at a strategic level and laid out Architecture Definitions for the four domains. They have set out an ambitious vision of the future of the company over a five-year period. This includes a solution architecture including three distinct transformations. The CIO has made it clear that prior to the approval of the detailed Implementation and Migration plan, the EA team will need to assess the risks associated with the proposed architecture. He has received concerns from some of the vice presidents across the company that the proposed architecture may be too ambitious and they are not sure it can produce sufficient value to warrant the attendant risks.

Refer to the Scenario

You have been asked to recommend an approach to satisfy these concerns.

Based on TOGAF, which of the following is the best answer?

- A.** The EA team should apply an interoperability analysis to evaluate any potential issues across the Solution Architecture. This should include the development of a matrix showing the interoperability requirements. Once all of the concerns have been resolved, the EA team should finalize the Architecture Roadmap and the Implementation and Migration Plan.
- B.** The EA team should apply the Business Transformation Readiness Assessment technique. This will allow the risks associated with the transformations to be identified and mitigated for. It will also identify improvement actions to be worked into the Implementation and Migration Plan. The Business Value Assessment technique should then be used to determine the business value and associated risks for the transformation.
- C.** The EA team should gather information about potential solutions from the appropriate sources. Once the Solution Architecture has been assembled, it should be analyzed using a state evolution table to determine the Transition Architectures. A value realization process should then be established to ensure that the concerns raised are addressed.
- D.** Before preparing the detailed Implementation and Migration plan, the EA team should review and consolidate the gap analysis results from Phases B to D to understand the transformations that are required to achieve the proposed Target Architecture. The EA team should then assess the readiness of the organization to undergo change. Once the Solution Architecture has been assembled, it should be analyzed using a state evolution table to determine the Transition Architectures.

**Answer: B**

#### **NEW QUESTION: 4**

Drag and drop the HTTP status codes from the left onto the

correct descriptions on the right.

**Answer:**

Explanation:

Explanation

1 - B, 2 - D, 3 - A, 4 - C
