You have the following markup.

You need to ensure that the yellow div is centered in the red div.

What should you do?

- A. Add the following code to the red div.`margin:auto`
- B. Add the following code to the red div.`align-content:center`
- C. Add the following code to the yellow div.`margin:auto`
- D. Add the following code to the yellow div.`align-content:center`

Answer: B

NEW QUESTION: 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some questions sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company plans to use Operations Management Suite (OMS) to track changes within virtual machines (VMs).

The company required that data collection occur at least every 15 minutes.

You need to recommend a solution to monitor VMs which ensures that data collection occurs at least every 15 minutes.

Solution: Monitor files on Linux VMs.

Does the solution meet the goal?

A. No

B. Yes

Answer: B

Explanation:

Explanation/Reference:

Explanation:

With OMS change tracking the frequency for monitoring files on Linux VMs is 15 minutes.

Note: You can use the Change Tracking solution to easily identify changes in your environment. The solution tracks changes to Windows and Linux software, Windows and Linux files, Windows registry keys, Windows services, and Linux daemons.

Identifying configuration changes can help you pinpoint operational issues.

Changes to installed software, Windows services, Windows registry and files, and Linux daemons on the monitored servers are sent to the Log Analytics service in the cloud for processing.

NEW QUESTION: 3

You are creating documentation for a new wireless solution that is deployed in the organization. Why is it important to document APIs in use within the system?

A. It allows future support to implement APIs that have not been used at the time of deployment.

B. If APIs are in use, it typically indicates the use of custom scripts or application code. Future support will be easier when the APIs in use are documented.

C. Vendors do not document their use of internal APIs well.

D. The APIs in use will not function without this documentation.

Answer: D
