Answer: A

NEW QUESTION: 3

Results of quality control measurements are used_____

- A. As an input to perform quality assurance
- B. To prepare a control chart
- C. To prepare an operational definition
- D. As an input to plan quality management

Answer: A

Explanation:

Explanation/Reference:

Explanation:

Quality control activities result in measurements that are used as inputs to the QA process. Such quality control measurements are used to evaluate and analyze the quality of the processes of the project against the organization's standards or specific requirements. They also compare processes used to create the measurements and validate actual measurements to determine their level of correctness.
