NEW QUESTION: 1

Your network contains an Active Directory domain named adatum.com. The domain contains a member server named Server1 and a domain controller named DC2. All servers run Windows Server 2012 R2.

On DC2, you open Server Manager and you add Server1 as another server to manage.

From Server Manager on DC2, you right-click Server1 as shown in the exhibit. (Click the Exhibit button.)

You need to ensure that when you right-click Server1, you see the option to run the DHCP console.

What should you do?

- A. In the domain, add DC2 to the DHCP Administrators group.
- B. On DC2, install the Role Administration Tools.
- C. On Server1, install the Feature Administration Tools.
- D. On DC2 and Server1, run winrmquickconfig.

Answer: B

Explanation:

[http://technet.microsoft.com/en-us/library/ee441255\(v=ws.10\).aspx](http://technet.microsoft.com/en-us/library/ee441255(v=ws.10).aspx)

NEW QUESTION: 2

- A. Option A
- B. Option D
- C. Option C
- D. Option H
- E. Option E
- F. Option G
- G. Option F
- H. Option B

Answer: C

Explanation:

Explanation

The differential backup of the reporting database has failed, so it can't be used.

NEW QUESTION: 3

You are planning a project that uses the same team as a project that is currently being performed by your company. What should you consult to find information about when those people will be available for your project?

- A. The project schedule for your project
- B. The communications management plan for your project
- C. The project manager for the project that the team is working on
- D. The staffing management plan for the project that the team is working on

Answer: D

Explanation:

The staffing management plan tells you everything that you need to know about when resources will be released from a project. Since the team you need for your project is currently on another project, that project's staffing management plan will tell you when they will be released from that project and available for yours.
