If you're skeptical about our Nokia BL0-220 exam dumps, you are more than welcome to try our demo for free and see what rest of the CCT BL0-220 exam applicants experience by availing our products.

So to get BL0-220 real exam and pass the BL0-220 exam is important, Then you can try our latest training certification exam materials, Our website promises that you can pass test at your first time to participate in the BL0-220 exam dumps and enhance yourself by practicing exam questions.

NEW QUESTION: 1

- A. Option D
- B. Option C
- C. Option B
- D. Option A

Answer: D

Explanation:

The Enable-VMResourceMetering cmdlet collects resource utilization data for a virtual machine or resource pool.

NEW QUESTION: 2

Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.

When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. You may now click next to proceed to the lab.

Instructions

Username and Password

Use the following login credentials as needed:

To enter your username, place your cursor in the Sign in box and click on the username below.

To enter your password, place your cursor in the Enter password box and click on the password below.

Microsoft 365 Username: [\[email protected\]](#)

Microsoft 365 Password: 0=M5w*%rYxfj

If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.

The following information is for technical support purposes only:

Lab Instance: 11134591

You need to ensure that users can browse to a SharePoint Online site collection named Work @ Contoso by browsing a site named Leadership.

To complete this task, sign in to Microsoft 365 admin portal.

Answer:

Explanation:

See explanation below.

Explanation

We need to start by configuring the Leadership site as a hub site.

After signing in to the Microsoft 365 admin portal, navigate to the Active sites page of the SharePoint admin center. Select the site (Leadership), select Hub, and then select Register as hub site.

Enter a display name for the hub site, and specify the individual users or security groups you want to allow to associate sites with the hub.

Select Save.

We now need to associate the Work @ Contoso site collection with the Leadership hub site.

Navigate to the Work @ Contoso site collection, click Settings and then click Site information.

In the Edit site information panel, under Hub site association, select the Leadership hub site and then click Save.

If the hub requires approvals, the site will be associated once the request is approved. Rejecting the association request will not associate the site with the hub site.

Once associated, the look of your site will change to match that of the hub site and the hub site navigation bar will appear at the top.
