(Choose two.)

**Answer:**

Explanation:

Explanation

**NEW QUESTION: 4**

Before development, your team creates a spreadsheet with work items to populate the backlog.

All work items that describe business requirements are prioritized as Must have.

You also create work items to address:

A future enhancement request to group a set of existing steps into a multistep form  
A drop-down list that is missing one of the required options -- This work item is in progress because the missing option prevents work from being done  
How do you populate the backlog directly from the spreadsheet?

**A.** Create stories

**B.** Import stories

**C.** Create bugs

**D.** Create feedback

**Answer: B**
