Hence, Plantasparaeljardin stands as an ally with you to help [C1000-047](#) achieve your dreams of success and build up your professional candidature, To help the clients solve the problems which occur in the process of using our C1000-047 study materials, the clients can consult u about the issues about our study materials at any time.

If you buy our C1000-047 exam questions, then you will find that the information compiled is all about the keypoints and the latest, you are tired of current work and want to own an advantage for new job application.

As we all know, an international C1000-047 certificate will speak louder to prove your skills, In the intensely competitive society, it is really necessary for you to take part in the examination and get the related certification for all your worth (C1000-047 exam guide materials), since the certification is one of the most powerful proofs which can show how professional you are.

But you don't have to worry about this when buying our C1000-047 study materials.

NEW QUESTION: 1

A company is already using Scrum very successfully within the development department. While highly effective Scrum Teams deliver new software increments quickly, these increments are not being delivered fast enough to customers. Releases happen once every 3 months and it takes too much effort to make sure that the releases go smoothly.

What type of framework should this company try to establish?

- A. DevOps
- B. Lean
- C. DSDM
- D. Waterfall

Answer: A

NEW QUESTION: 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets

might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has several Microsoft SQL Server instances. Each instance hosts many databases.

You observe I/O corruption on some of the instances.

You need to perform the following actions:

Identify databases where the PAGE VERIFY option is not set.

Configure full page protection for the identified databases.

Solution: You run the following Transact-SQL statement:

For each database that you identify, you run the following Transact-SQL statement:

Does the solution meet the goal?

A. Yes

B. No

Answer: A

Explanation:

Explanation/Reference:

Explanation:

We should set the PAGE_VERIFY Database Option to CHECKSUM.

Note:

CHECKSUM is the Way to Go For Page Verify

This isn't about security- this is about you knowing if changes to SQL Server's files are happening outside of its control, whether by corruption or any other means.

It's very easy to check if you're using CHECKSUM. Take a look at your settings today, and make a plan to move to checksum for any databases which need it!

```
SELECT NAME
```

```
FROM sys.databases
```

```
WHERE page_verify_option_desc <> 'CHECKSUM'
```
