Answer: C

NEW QUESTION: 2

You are the Office 365 administrator for a company. All employees in the legal department are members of a security group named Legal-Discovery.
 You identify the following requirements:
 Each member of the Legal-Discovery group must only be able to manage eDiscovery cases they create.
 You must use the principle of least amount privilege when granting permissions.
 Assign permissions using a default role or role group if one exists.

You need to configure the Legal-Discovery group.
 What should you do?

- A.** Add users to the Compliance Administrator role group.
- B.** Add users to the eDiscovery Administrator role group.
- C.** Add users to the eDiscovery Manager role group.
- D.** Create a custom role group. Add users to the role group.

Answer: C

Explanation:
 eDiscovery Managers An eDiscovery Manager can use the Content Search tool in the Security & Compliance Center to search content locations in the organization, and perform various search-related actions such as preview and export search results. Members can also create and manage eDiscovery cases, add and remove members to a case, create case holds, and run Content Searches associated with a case. An eDiscovery Managers can only access and manage the cases they create. They can't access or manage cases create by other eDiscovery Managers.
