Answer:

Explanation:

the type of work to complete, if you like. Answer option A is incorrect. If you will not create a filter, then all the resources will be displayed. Answer option D is incorrect. You will not create a view, but a filter to find the results you need. Answer option C is incorrect. The filter is actually created within the Resource Center, not directly on the main page of Project Web Access. What is a Project view? A Project view is used to display task, assignment, or resource information specific to a single project. Detailed information about the project tasks, including enterprise task custom fields is displayed. A user can view, group, filter, and sort information in a Project view based on the information defined in the enterprise task custom fields.
