If you have tried our demo of EADF2201 actual exam questions and practice the questions and answers, and then think it is good, you can choose our complete pass-for-sure EADF2201 actual torrent: ArcGIS Developer Foundation 2201.

Learning our EADF2201 study materials can help them save the time and focus their attentions on their major things, Our EADF2201 exam questions can upgrade your skills and experience [C TADM 22 100% Correct Answers](#) to the current requirements in order to have the opportunity to make the next breakthrough.

How can you pass your exam and get your certificate in a short time?

NEW QUESTION: 1

In the United States, during the second quarter of 2009, transactions in foreign exchange derivative contracts comprised approximately what proportion of all types of derivative transactions between financial institutions?

- A. 7%
- B. 43%
- C. 25%
- D. 2%

Answer: A

NEW QUESTION: 2

Which of the following operating systems was developed by Linus Torvalds, a programmer from Finland?

- A. Unix
- B. Linux
- C. Mac OS
- D. Microsoft Windows

Answer: B

Explanation:

Linux was developed by Linus Torvalds, a Finnish software engineer best known for having initiated the development of the Linux kernel and git revision control system. He later became the chief architect of the Linux kernel and now acts as the project's coordinator. Answer option B is incorrect.

Mac OS is the trademark-protected name for a series of graphical user interface-based operating systems developed by Apple Inc. for their Macintosh line of computer systems. The Macintosh user experience is credited with popularizing the graphical user interface. The original form of what Apple would later name the 'Mac OS' was the integral and unnamed system software first introduced in

1984 with the original Macintosh, usually referred to simply as the System software. Answer option A is incorrect. Microsoft Windows is a series of software operating systems and graphical user interfaces produced by Microsoft. Microsoft first introduced an operating environment named Windows in November 1985 as an add-on to MS-DOS in response to the growing interest in graphical user interfaces (GUIs). Microsoft Windows came to dominate the world's personal computer market, overtaking Mac OS, which had been introduced previously. Answer option D is incorrect. Unix (officially trademarked as UNIX, sometimes also written as Unix with small caps) is a computer operating system originally developed in 1969 by a group of AT&T employees at Bell Labs, including Ken Thompson, Dennis Ritchie, Brian Kernighan, Douglas McIlroy, and Joe Ossann

A. Today's Unix

systems are split into various branches, developed over time by AT&T as well as various commercial vendors and non-profit organizations.

Unix operating systems are widely used in both servers and workstations. The Unix environment and the client-server

program model were essential elements in the development of the Internet and the reshaping of computing as centered in networks rather than in individual computers.

NEW QUESTION: 3

Subscription1 and Subscription2 are virtual networks in Azure, and they are peered. The peering is configured with the following settings:

• The peering is set to be bidirectional.

• The peering is set to be transitive.

• The peering is set to be global.

• The peering is set to be automatic.

• The peering is set to be manual.

• The peering is set to be dynamic.

Subscription1 is connected to the Internet. Subscription2 is not connected to the Internet. The peering is configured with the following settings:

Answer:

Explanation:

Explanation:

Box 1: Yes

With VNet-to-VNet you can connect Virtual Networks in Azure across Different regions.

Box 2: Yes

Azure supports the following types of peering:

Virtual network peering: Connect virtual networks within the same Azure region.

Global virtual network peering: Connecting virtual networks across Azure regions.

Box 3: No

The virtual networks you peer must have non-overlapping IP address spaces.

NEW QUESTION: 4

The primary mechanism for motivating venture capitalists is

- A. allowing a high ownership stake in the venture.
- B. the carried interest paid to them.
- C. permitting certain types of self-dealing.
- D. to have finite life funds.

Answer: B

Explanation:

Explanation/Reference:

Explanation:

Carried interest is calculated over and above some assumed base level of return to investors and the amount paid is usually approximately 20 percent of the portfolio gains.
