Answer: C

NEW QUESTION: 3
What Shared Ethernet Adapter environment can be implemented to prevent client network outages when the Virtual I/O server needs to be shut down for maintenance?
A. Etherchannel on the Virtual I/O Server
B. Link Aggregation on the Virtual I/O Server
C. Live Partition Mobility
D. Shared Ethernet Adapter failover
Answer: C

NEW QUESTION: 4

A. Option C
B. Option A
C. Option B
D. Option D
Answer: A
Explanation:
CSS attempts to create a balance of power between author and user style sheets. By default, rules in an author's style sheet override those in a user's style sheet.
However, for balance, an "!important" declaration (the delimiter token "!" and keyword "important" follow the declaration) takes precedence over a normal declaration. Both author and user style sheets may contain "!important" declarations, and user "!important" rules override author "!important" rules.
This CSS feature improves accessibility of documents by giving users with special requirements (large fonts, color combinations, etc.) control over presentation.
Reference: Assigning property values, Cascading, and Inheritance, !important rules
