The success rate is 100%, and can ensure you pass the exam.

**NEW QUESTION: 1**

You are in charge of migrating a legacy application from your company datacenters to GCP before the current maintenance contract expires. You do not know what ports the application is using and no documentation is available for you to check. You want to complete the migration without putting your environment at risk.

What should you do?

**A.** Refactor the application into a micro-services architecture hosted in Cloud Functions in an isolated project.

Disable all traffic from outside your project using Firewall Rules. Use VPC Flow logs to determine what traffic should be allowed for the application to work properly.

**B.** Refactor the application into a micro-services architecture in a GKE cluster. Disable all traffic from outside the cluster using Firewall Rules. Use VPC Flow logs to determine what traffic should be allowed for the application to work properly.

**C.** Migrate the application into an isolated project using a "Lift & Shift" approach in a custom network. Disable all

traffic within the VPC and look at the Firewall logs to determine what traffic should be allowed for the application to work properly.

**D.** Migrate the application into an isolated project using a "Lift & Shift" approach. Enable all internal TCP traffic using VPC Firewall rules. Use VPC Flow logs to determine what traffic should be allowed for the application to work properly.

**Answer: B**

**NEW QUESTION: 2**

Northern Trail Outfitters (NTO) stores most of their customer data in Marketing Cloud. They do not mind their data being viewed in clear text within SFMC to users who have access, but they want to ensure the underlying database files are encrypted at rest in case the physical media is stolen.

Which encryption method should NTO use?

**A.** Transparent Data Encryption

**B.** Encrypted Data Sending

**C.** Tokenized Sending

**D.** Field-Level Encryption

**Answer: A**

**NEW QUESTION: 3**

You are the Microsoft 365 administrator for a company. You need to help management understand how the release of new features might impact the company.

Match each deployment scenario appropriate release type. To answer, drag the appropriate deployment scenarios to the correct release types. Each deployment scenario may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Answer:**
