Generally speaking, reviewing what you have learned is important, since [HMJ-1223](#) it will help you have a good command of the knowledge points, Buyers don't worry that Credit Card will guarantee your benefits.

We have the best HMJ-1223 exam braindumps for guaranteed results, Actually, if you can guarantee that your effective learning time with HMJ-1223 test preps are up to 20-30 hours, you can pass the exam.

Our HMJ-1223 exam dumps are high-quality, you just need to spend 48 to 72 hours on practicing, and you can pass the exam in your first time, Your money and exam attempt is bound to award you a sure and definite success if you study with our HMJ-1223 study guide to prapare for the exam.

And our HMJ-1223 learning prep can be one of your challege, Whether you are good at learning or not, passing the exam can be a very simple and enjoyable matter together with our HMJ-1223 practice engine.

**NEW QUESTION: 1**

**A.** Automatic Start Action

- B. BIOS
- C. Automatic Stop Action
- D. Integration Services

**Answer: C**

Explanation:

The Automatic Stop Action setting should be modified because it will allow you to configure: "Save the virtual machine state" option instructs Hyper-V Virtual Machine Management Service to save the virtual machine state on the local disk when the Hyper-V Server shuts down. OR "Turn Off the virtual machine" is used by the Hyper-V Management Service (VMMS.exe) to gracefully turn off the virtual machine. OR "Shut down the guest operating system" is successful only if the "Hyper-V Shutdown" guest service is running in the virtual machine. The guest service is required to be running in the virtual machine as the Hyper-V VMMS.EXE process will trigger Windows Exit message which is received by the service. Once the message is received by the guest service, it takes the necessary actions to shut down the virtual machine.

**NEW QUESTION: 2**

Which of the following components has a direct influence on the logistics processes? (Choose four)

- A. Sales and Distribution
- B. Logistics Execution
- C. Plant Maintenance
- D. Production
- E. Material Management
- F. Quality Management

**Answer: A,B,D,E**

**NEW QUESTION: 3**

Given the class:

Choose the URL path that would result in a call to getToken()? (Choose one)

- A. /resource/id/name
- B. /resource/id
- C. /id/value
- D. /resource/id/value/token

**Answer: A**

**NEW QUESTION: 4**

The partial output displayed in the exhibit is a result of what IOS command? (Click on the Exhibit(s) button.)

- A. switch# show hsrp 1

- B. switch# show standby
- C. switch# show standby vlan1 active brief
- D. switch# show running-config

**Answer: B**

Explanation:

Explanation/Reference:

Explanation:

The command show standby produces the output displayed in the exhibit. This command displays information about HSRP on all configured interfaces and for all HSRP groups. Important information in the exhibit includes that this router is the active router, the virtual IP address for the HSRP group is 172.16.1.20, the address of the standby router is 172.16.1.6, and the router is configured to preempt.

The command show running-config will display the complete configuration of the device, including the configuration of HSRP, but will not display the current status of HSRP on the switch.

The command show standby vlan 1 active brief provides a summary display of all HSRP groups on the switch that are in the active state. This output would provide basic information, not nearly the detail indicated in the exhibit. The following is an example of output for show standby vlan 1 active brief:

```
Interface Grp Prio P State Active addr Standby addr Group addr
Vlan1 0 120 Active 172.16.1.5 Unknown 172.16.1.20
```

The command show hsrp 1 is not valid due to incorrect syntax.

Objective:

Infrastructure Services

Sub-Objective:

Configure and verify first-hop redundancy protocols

References:

Cisco > Cisco IOS IP Application Services Command Reference  
> show ip sockets through standby name

> show standby

Cisco > Cisco IOS IP Application Services Configuration Guide, Release 12.4 > Part 1: First Hop Redundancy Protocols
