If you fail to pass the exam in your first **Dumps HPE2-E72 Torrent** attempt, we will give you full refund and no other questions will be asked.

**NEW QUESTION: 1**

Welche der folgenden Windows-Versionen wurde mithilfe von Anwendungen in der Metro-OberflÄœche eingefÃ¼hrt?

- A. Windows 7
- B. Windows 10
- C. Windows 8.1
- D. Windows 8

**Answer: D**

**NEW QUESTION: 2**

Your network contains an Active Directory domain named contoso.com. All user accounts are in an organizational unit (OU) named Employees.

You create a Group Policy object (GPO) named GP1. You link GP1 to the Employees OU.

You need to ensure that GP1 does not Apply to the members of a group named Managers.

What should you configure?

- A. The Block Inheritance option for Employees
- B. The WMI filter for GP1
- C. The Security settings of Employees
- D. The Security settings of GP1

**Answer: D**

Explanation:

A. Wrong Group

B. Windows Management Instrumentation (WMI) filters allow you to dynamically determine the scope of GroupPolicy objects (GPOs) based on attributes of the target computer.

C. Blocking inheritance prevents Group Policy objects (GPOs) that are linked to higher sites, domains, or organizational units from being automatically inherited by the child-level.

D. Set Managers to - Members of this security group are exempt from this Group Policy object. Security settings. You use the Security Settings extension to set security options for computers and users within the scope of a Group Policy object. You can define local computer, domain, and network security settings.

Figure below shows an example of the security settings that allow everyone to be affected by this GPO except the members of the Management group, who were explicitly denied permission to the GPO by setting the Apply Group Policy ACE to Deny. Note that if a member of the Management group were also a member of a group that had an explicit Allow setting for the Apply Group Policy ACE, the Deny would take precedence and the GPO would not affect the user.
