Answer: A,B,C,D

Explanation:
Explanation/Reference:
Explanation: The following are the common roles with regard to
data in an information classification program: Owner Custodian
User Security auditor The following are the responsibilities of
the owner with regard to data in an information classification
program: Determining what level of classification the
information requires. Reviewing the classification assignments
at regular time intervals and making changes as the business
needs change. Delegating the responsibility of the data
protection duties to the custodian. The following are the
responsibilities of the custodian with regard to data in an
information classification program: Running regular backups and
routinely testing the validity of the backup data Performing
data restoration from the backups when necessary Controlling
access, adding and removing privileges for individual users The
users must comply with the requirements laid out in policies
and procedures. They must also exercise due care. A security
auditor examines an organization's security procedures and
mechanisms.
