

## Choosing PL-900 Exam Simulator Fee - Get Rid Of Microsoft Power Platform Fundamentals - Plantasparaeljardin

Once you received our email, you can review PL-900 practice exam immediately and practice latest PL-900 exam pdf, Now let me introduce the PDF version of our PL-900 exam questions to you, Especially when you get a high PL-900 passing score in test, it means that you have capability to handle with professional issue of technology and you are quite qualified for IT work, Microsoft PL-900 Test Dumps Free And is the difficulty of learning a new piece of knowledge often deterring you?

This integrated learning package, To be out of the ordinary **PL-900 Test Dumps Free** and seek an ideal life, we must master an extra skill to get high scores and win the match in the workplace.

Is Corporate Death Inevitable, A successful webmaster was PL-900 Dumps expected to work well with others and collaborate successfully with managers, designers, writers, and so forth.

But suffice it to say for now that if an anchor point isn't positioned ideally [Guaranteed 77200X Success](#) as you build your vector shape, it will make controlling the path so that it matches your drawing far more difficult and possibly inaccurate.

By understanding and applying its principles, managers may be well on their [Microsoft Power Platform Fundamentals](#) way to minimizing risks and gaining a competitive edge, A great feature is that once most brushes are made, you can get back the original artwork!

PL-900 Test Dumps Free - Microsoft PL-900 Exam Simulator Fee: Microsoft Power Platform Fundamentals Finally Passed Combining Multiple Formulas into One Formula, As a [PL-900](#) set, or limited target, its value must exactly match the nature of the power in its target characteristic, They're a convenience for the user to get [Training SPLK-1003 Materials](#) information that they really want without having to manually switch to your app and look for it.

Once you received our email, you can review PL-900 practice exam immediately and practice latest PL-900 exam pdf, Now let me introduce the PDF version of our PL-900 exam questions to you.

Especially when you get a high PL-900 passing score in test, it means that you have capability to handle with professional issue of technology and you are quite qualified for IT work.

And is the difficulty of learning a new piece of knowledge often deterring you, We use traffic log cookies to identify

which pages are being used, Accurate PL-900 latest torrent.

Moreover, if you unfortunately fail the exam, [Exam PL-200 Simulator Fee](#) we will give back full refund as reparation or switch other valid exam torrent for you, You can also test your own PL-900 exam simulation test scores in PC test engine, which helps to build confidence for real exam.

2022 Unparalleled PL-900 Test Dumps Free Help You Pass PL-900 Easily

Having Plantasparaeldjardin can make you spend shorter time less money [AD0-E208 Download Pdf](#) and with greater confidence to pass the exam, and we also provide you with a free one-year after-sales service.

You can download the Microsoft PL-900 dumps instantly on your PC, laptop, Mac, and smartphone, All these three types of PL-900 practice materials win great support around the world and **PL-900 Test Dumps Free** all popular according to their availability of goods, prices and other term you can think of.

In order to improve your own competitiveness in your field, the best alternative **PL-900 Test Dumps Free** on your part is to work a way out via taking part in the exam and trying your best to get the related certification, while our company has been engaged in compiling the best study materials for over ten years in order **PL-900 Test Dumps Free** to help the candidates who will take part in the exam to pass the Microsoft Power Platform Fundamentals exam as well as getting the related certification with great ease.

About some esoteric points, they illustrate with examples for you, Why **PL-900 Test Dumps Free** Microsoft Certified Power Platform Fundamentals Machine Learning Studio, So you can study anywhere, anytime, So please feel free to contact us if you have any questions.

These days, no industry can survive without Information **PL-900 Test Dumps Free** technology that involves a huge number of certifications, including Microsoft Microsoft Certified Power Platform Fundamentals, While, the preparations for the PL-900 certification are necessary, so where to find the valid and latest PL-900 exam dumps is the best important thing for them.

In addition, PL-900 exam materials of us contain both questions and answers, and you can have a quickly check after practicing, You will have a better experience on our Microsoft Power Platform Fundamentals prep material.

### **NEW QUESTION: 3**

SIMULATION

Lab Simulation Question -EIGRP

CCNA.com has a small network that is using EIGRP as its IGP. All routers should be running an EIGRP AS number 12. Router MGT is also running static routing to the ISP.

CCNA.com has recently adding the ENG router. Currently, the ENG router does not have connectivity to the ISP router. All other interconnectivity and Internet access for the existing locations of the company are working properly.

The task is to identify the fault(s) and correct the router configuration(s) to provide full connectivity between the routers.

Access to the router CLI can be gained by clicking on the appropriate host.

All passwords on all routers are cisco.

IP addresses are listed in the chart below.

MGT

Fa0/0-192.168.77.33

S1/0-198.0.18.6

S0/0-192.168.27.9

S0/1-192.168.50.21

ENG

Fa0/0-192.168.77.34

Fa1/0-192.168.12.17

Fa0/1-192.168.12.1

Parts1

Fa0/0-192.168.12.33

Fa0/1-192.168.12.49

S0/0-192.168.27.10

Parts2

Fa0/0-192.168.12.65

Fa0/1-192.168.12.81

S0/1-192.168.50.22

### **Answer :**

Explanation:

Please see explanation

Explanation/Reference:

Explanation:

First we should check the configuration of the ENG Router. Click the console PC "F" and enter the following commands.

```
ENG> enable
```

```
Password: cisco
```

```
ENG# show running-config
```

```
Building configuration...
```

```
Current configuration: 770 bytes
```

```

!
version 12.2
no service timestamps log datetime msec
no service timestamps debug datetime msec
no service password
-
encryption
!
hostname ENG
!
enable secret 5 $1$mERr$hX5rVt7rPNoS4wqbXKX7m0
!
interface FastEthernet0/0
ip address 192.168.77.34 255.255.255.252
duplex auto
speed auto
!
interface FastEthernet0/1
ip address 192.168.60.65 255.255.255.240
duplex auto
speed auto
!
interface FastEthernet1/0
ip address 192.168.60.81 255.255.255.240
duplex auto
speed auto
!
router eigrp 22
network 192.168.77.0
network 192.168.60.0
no auto
-
summary
!
ip classless
!
line con 0
line vty 0 4
login
!
end
ENG#

```

From the output above, we know that this router was wrongly configured with an autonomous number (AS) of 22. When the AS numbers among routers are mismatched, no adjacency is formed. (You should check the AS numbers on other routers for sure) To solve this problem, we simply re-configure router ENG router with the following commands:

```

ENG# conf t
ENG(config)# no router eigrp 22
ENG(config)# router eigrp 222
ENG(config-router)# network 192.168.60.0
ENG(config-router)# network 192.168.77.0

```

```
ENG(config-router)# no auto-summary
ENG(config-router)# end
ENG# copy running-config startup-config
Second we should check the configuration of the MGT Router.
Click the console PC "G" and enter the following commands.
MGT> enable
Password: cisco
MGT# show running-config
Building configuration...
Current configuration : 1029 bytes
!
version 12.2
no service timestamps log datetime msec
no service timestamps debug datetime msec
no service password-encryption
!
hostname MGT
!
enable secret 5 $1$mERr$hX5rVt7rPNoS4wqbXKX7m0
!
interface FastEthernet0/0
ip address 192.168.77.33 255.255.255.252
duplex auto
speed auto
!
interface Serial0/0
ip address 192.168.36.13 255.255.255.252
clock rate 64000
!
interface Serial0/1
ip address 192.168.60.25 255.255.255.252
clock rate 64000
!
interface Serial1/0
ip
address 198.0.18.6 255.255.255.252
!
interface Serial1/1
no ip address
shutdown
!
interface Serial1/2
no ip address
shutdown
!
interface Serial1/3
no ip address
shutdown
!
router eigrp 222
network 192.168.36.0
network 192.168.60.0
network
```

```
192.168.85.0
network 198.0.18.0
no auto
-
summary
!
ip classless
ip route 0.0.0.0 0.0.0.0 198.0.18.5
!
line con 0
line vty 0 4
login
!
end
MGT#
```

Notice that it is missing a definition to the network ENG. Therefore, we have to add it so that it can recognize ENG router

```
MGT# conf t
MGT(config)# router eigrp 222
MGT(config-router)# network 192.168.77.0
MGT(config-router)# end
```

MGT# copy running-config startup-config  
Now the whole network will work well. You should check again with ping command from router ENG to other routers!

In Short:

```
ENG Router
ENG>enable
Password: cisco ENG# conf t
ENG(config)# no router eigrp 22
ENG(config)# router eigrp 222
ENG(config-router)# network 192.168.60.0
ENG(config-router)# network 192.168.77.0
ENG(config-router)# no auto-summary
ENG(config-router)# end
ENG# copy running-config startup-config
```

```
MGT Router
MGT>enable
Password: cisco MGT# conf t
MGT(config)# router eigrp 222
MGT(config-router)# network 192.168.77.0
MGT(config-router)# end
MGT# copy running-config startup-config
```

Some Modification in Question

After adding ENG router, no routing updates are being exchanged between MGT and the new location. All other inter connectivity for the existing locations of the company are working properly. But Internet connection for existing location including Remote1 and Remote2 networks are not working.

Faults Identified:

1. Incorrect Autonomous System Number configured in ENG router.
2. MGT router does not advertise route to the new router ENG.
3. Internet Connection is not working all stations.

We need to correct the above two configuration mistakes to have full connectivity Steps:

1. ENG Router:

Change the Autonomous System Number of ENG

2. Perimeter Router: Add the network address of interface of Perimeter that link between MGT and ENG.

3. Perimeter Router: Add default route and default-network.

Check the IP Address of S1/0 interface of MGT Router using show running-config command.

(The interfaced used to connect to the ISP)

!

```
interface Serial1/0
ip address 198.0.18.6 255.255.255.252
```

!

For Internet sharing we have created a default route, and add default-network configuration. The IP address is 198.0.18.6/30. Then the next hop IP will be 198.0.18.5.

ENG Router

ENG>enable

Password: cisco ENG# conf t

ENG(config)# no router eigrp 22

ENG(config)# router eigrp 222

ENG(config-router)# network 192.168.60.0

ENG(config-router)# network 192.168.77.0

ENG(config-router)# no auto-summary

ENG(config-router)# end

ENG# copy running-config startup-config

MGT Router

MGT>enable

Password: cisco MGT# conf t

MGT(config)# router eigrp 222

MGT(config-router)# network 192.168.77.0

MGT(config-router)# exit

MGT(config)# ip route 0.0.0.0 0.0.0.0 198.0.18.5

MGT(config)# ip default-network 198.0.18.0

MGT(config)# exit

MGT# copy running-config startup-config

Important:

If you refer the topology and IP chart, the MGT router uses Fa0/0 to connect ENG router, S0/0 used to connect Remote1, and S0/1 used to connect Remote2.

Refer to the command show running-config, the command #PASSIVE-INTERFACE <Interface Name> will deny EIGRP updates to specified interface. In that case we need to use #no passive-interface <Interface Name> to allow the routing updates to be passed to that interface. For example, when used the #show run command and we see the output like below.

!

```
router eigrp 22
network 192.168.77.0
network 192.168.60.0
passive-interface FastEthernet 0/0
passive-interface Serial 1/0
```

no auto-summary

!

Then the command would be

```
MGT(config)#router eigrp 222
```

```
MGT(config-router)#no passive-interface Fa0/0
```

```
MGT(config-router)#end
```

Also MGT router connect to the ISP router using Serial 1/0. If you see passive-interface s1/0, then do not remove it using #no passive-interface s1/0 command.

#### **NEW QUESTION: 4**

The mother of a preschooler reports to the nurse that he frequently tells lies. The admission assessment of the child indicates possible child abuse. The nurse knows that his:

- A.** Lying is normal behavior for a preschool child who is learning to separate fantasy from reality.
- B.** Mother is lying to protect herself.
- C.** Behavior indicates a developmental delay, because preschoolers should be able to tell right from wrong.
- D.** Behavior is not normal, and a child psychiatrist should be consulted.

**Answer: A**

Explanation:

Explanation/Reference:

Explanation:

(A) Because preschoolers often tell "stories" as they learn to differentiate fantasy from reality, the child's behavior is normal. (B) The nurse has no reason to believe the child's mother is lying, because children of his age often tell lies. (C) The child's lying is actually "storytelling" as he learns to separate fantasy from reality, a normal developmental task for his age group. (D) The child's behavior is consistent with his age and does not indicate a developmental delay.
