NEW QUESTION: 2

Which of the following blades is NOT subscription-based and therefore does not have to be renewed on a regular basis?

- A. Threat Emulation
- B. Advanced Networking Blade
- C. Application Control
- D. Anti-Virus

Answer: A

NEW QUESTION: 3

Which of the following is the MAIN objective in contracting with an external company to perform penetration testing?

- A. To have an independent certification of network security
- B. To mitigate technical risks
- C. To identify a complete list of vulnerabilities
- D. To receive an independent view of security exposures

Answer: D

Explanation:

Even though the organization may have the capability to perform penetration testing with internal resources, third-party penetration testing should be performed to gain an independent view of the security exposure. Mitigating technical risks is not a direct result of a penetration test. A penetration test would not provide certification of network security nor provide a complete list of vulnerabilities.
